

The WordBox! TM Company

P.O. Box 1115
Belmont, California 94002
(415) 592-5447

To Our Customer:

The YourWordBox! CD-ROM is self-booting; however, we have included a 3.5" disk which may be used to boot the program, if that is your preference. YourWordBox! loads much faster from the floppy disk than from the CD-ROM. THERE IS ONE CONDITION UNDER WHICH YOU MUST BOOT FROM THE 3.5" DISK. That is, if you do not have the Apple II High-Speed SCSI Card installed.

If the CD-ROM changes in the future and you would like to be able to boot from the CD-ROM without the High-Speed SCSI Card, then YOU WILL RECEIVE A NEW CD-ROM. Simply make a note on the Product Registration Card that came with your manual. Just write "SCSI Upgrade" on the card in the "Comments" section. There will be no cost to you for this upgrade and you will not have to return the original CD-ROM.

If you boot from the 3.5" disk, all procedures for running YourWordBox! are consistent with the Parent's and Teacher's Manual. However, there are some minor differences in loading and terminating the program. The differences are noted on the reverse side of this letter.

You are allowed to make one backup copy of the enclosed disk. Thank you and we hope that you enjoy YourWordBox!.

Sincerely,

Terry W. Loar
President

BOOTING FROM THE 3.5" DISK ("/boot.disk")

Make sure that the CD-ROM is in the drive and that it is on-line.

A. If you have MORE THAN ONE FLOPPY DISK DRIVE:

1. Put the YourWordBox! "/boot.disk" volume in the designated boot drive.
2. Put the "/kidsdisk" volume in another drive.
3. Boot the system from the "/boot.disk" drive. The YourWordBox! main program will load, unless:
 - a. You type 'd' to go to the desktop (Bonus Programs), or
 - b. You type '5' to go to the demonstration program.

B. If you have only ONE FLOPPY DISK DRIVE:

1. Put the YourWordBox! "/boot.disk" volume in the designated boot drive.
2. Boot the system from the "/boot.disk" drive. The YourWordBox! main program will load, unless:
 - a. You type 'd' to go to the desktop (Bonus Programs), or
 - b. You type '5' to go to the demonstration program.

When the message appears on the screen requesting you to do so, put the "/kidsdisk" volume in the disk drive. Press RETURN and YourWordBox! will continue to load.

TERMINATING FROM YourWordBox!

A. If you have MORE THAN ONE FLOPPY DISK DRIVE - After selecting "Quit" on the END OF SESSION screen:

1. turn the machine off, or
2. press Open-Apple, Control, and Reset simultaneously, or
3. press RETURN.

B. If you have only ONE FLOPPY DISK DRIVE - After selecting "Quit" on the END OF SESSION screen or before typing "N" (no more students) from the "print.report" bonus program:

1. turn the machine off, or
2. put "/boot.disk" into the boot drive. Press RETURN or Open-Apple, Control, and Reset simultaneously.

TERMINATING FROM THE DESKTOP

Pull down the "Special" menu and select "Shut Down" then "Turn Off System Power". The CD-ROM and 3.5" disk will be ejected. You may:

1. turn the machine off, or
2. reinsert the CD-ROM and 3.5" floppy disk and press RETURN or Open-Apple, Control, and Reset simultaneously.
